
 * The Apple Corps of Dallas GS DOM Library *

ACD.GSDOM files 1 through 201 were compiled for Apple Corps Dallas (ACD) by Mark Eggers and distributed under his logo of SeaSide Software through December 1991. Mark did an excellent job of providing the GS users the latest from the major services (AOL, GENIE) for two years. ACD purchased the archival library from Mark when he had to move to Denver. Our thanks to Mark for his long term service to ACD and the GS membership.

ACD.GSDOM file 202 through 218 were compiled by Fred Sheffler. NEW disks are added to this list when ready for distribution.

CAVEAT: It is always possible that there might be programs in this collection that are NOT public domain, demos, or shareware, or have restrictions from being redistributed. If you find such a program PLEASE advise us immediately so that we may remove it.

We do not support piracy, or distribution of copyrighted materials without express permission from the authors.

We are licensed to distribute Apple Inc. files to MEMBERS of Apple Corps Dallas, only. If you are not a member you may obtain these files from authorized dealers or download them from GENIE or AOL. Remember, as an end user you may NOT redistribute Apple Inc. files electronically or make copies for other persons.
